BOSCH
Invented for life

Who are Bosch?

"I have always acted according to the principle that it is better to lose money than trust. The integrity of my promises, the belief in the value of my products and in my word of honour have always had a higher priority to me than a transitory profit."

Robert Bosch, 1921

For over 125 years, the Bosch name has been synonymous with engineering excellence. Our home appliances are renowned for their quality, reliability and performance which derives from our inherent, unflagging commitment and the painstaking thoroughness with which every unit is made. As you would expect from German engineering, there are no gimmicks or frills with our products – just pure, clean lines and beautiful, functional simplicity that will enhance any kitchen.

The values that shaped Robert Bosch's vision for his new company in 1886 are the same principles that guide the business today; never lose the trust of your customers, look after your staff and partners and change things for the better. It's what has kept Bosch at the forefront of the home appliance industry and what will keep it there in the future.

Looking for help?
You'll find it here.

For help with your home appliance,
trust Bosch Customer Service.

Arrange an engineer visit.

Our appliances are manufactured to the highest standards, but if you do need a visit from an engineer we are here to help. We have teams of locally based engineers around the country – employed and trained by Bosch*. This gives them unrivalled expertise and knowledge of our appliances. We repair appliances both in and out of guarantee. All repairs are analysed in advance by a technical team so that the parts likely to be needed to complete the repair are sent to the engineer's van the night before the visit.

To arrange an engineer visit to your home please call:

0344 892 8979

Lines are open 24 hours.

Calls are charged at the basic rate, please check with your telephone service provider for exact charges.

You can also arrange an engineer visit online: **bosch-home.co.uk/bookonline**

Product advice.

If you need help using programmes or features, or need assistance selecting a new Bosch appliance from our current range, our product advice team can help.

You can call us on

0344 892 8979

or visit: **bosch-home.co.uk** for frequently asked questions and helpful videos.

Register my appliance

We advise that you register your appliances so that we can contact you about any product updates. Visit registermyappliance.org.uk for more information.

You can also call Bosch directly to register your appliance on 0344 892 8979 (option 5). Please call us within 28 days of purchase to discuss the full range of options for extending your warranty.

Visit the Bosch online store.

Find a comprehensive selection of accessories to help you get the most out of your appliance, along with our full range of replacement spare parts and cleaning and care products at the Bosch online store.

You can also purchase Tassimo hot drinks machines, vacuum cleaners, irons, steam stations, kettles, toasters and food preparation appliances directly from us online.

You can call us on

0344 892 8979

or visit: **bosch-home.co.uk/store**

Accessories.

Many appliances can be enhanced with optional extras, such as telescopic rails for ovens or special cookware for hobs.

When buying a Bosch home appliance, you know you are purchasing a quality, reliable product. However many appliances are used daily, so need cleaning and maintaining to keep them looking great and operating at peak performance.

Every one of our cleaning and care products has been thoroughly tested and approved for safe and effective use on your Bosch home appliance.

Replacement spare parts.

We keep in stock a comprehensive range of replacement spare parts for our appliances for up to ten years. All our parts are original spare parts, not copies.

Award-winning service.

Bosch Home Appliances Service was proud to win the Domestic & General Total Excellence & Quality Award for 2016. The award is decided from surveys sent to customers and 94.1% described our service as excellent or good.

Calls will be answered 24 hours a day, seven days a week. You can contact our specialist advisors Monday to Friday 8am to 8pm, Saturday 8am to 4pm and Sunday 9am to 3pm.

Your home is in safe hands. Yours.

Bosch appliances with Home Connect work with Nest products to keep your home safe, while saving you time and energy. You'll always be in total control, wherever you are.

Welcome to your new digital home.

Remote control takes on a new meaning with Home Connect. You'll be able to connect to a number of your home appliances with your smart device while you're out. That means you'll be able to control your washing machine and dishwasher easily and monitor their progress through their cycles. And whether you're at home or not, the handy app will let you know the most suitable programme for your dishes or your laundry. When it comes to your fridge, our innovative interior cameras let you sneak a peek at what you've got in.

An ingenious partnership.

With Home Connect and Nest, you'll always be in full control. With instant notifications and the ability to react quickly, Nest's smart devices will keep you updated even when you're out. It's also a brilliant way to save energy – if you're away from home for a period of time, you'll be able to switch your fridge to eco mode to save power. When life's so busy, you can relax knowing that Home Connect and Nest are looking after your home.

To use your home appliances from Bosch with Home Connect capability, you need a smart phone or tablet with Wi-Fi.

Look out for our Home Connect models.

Introducing the Bosch laundry range.

Energy- and water-saving technologies across our latest laundry appliances give you peace of mind when washing and drying your clothes. To help you choose the right appliance, we have divided them into three categories.

Serie 8 +++

Perfection in every detail, our **Serie 8** range of laundry appliances stands out from the crowd with superior quality, results and first-class design. Discover cutting-edge features and extras such as **i-DOS** automatic dosing in our washing machines and **ActiveOxygen™** for hygienic washing at low temperatures. Monitor and control your wash remotely with our **Home Connect** washing machines, developed to give you complete control over your laundry.

Serie 6 ++

Our **Serie 6** models strive for sustainability and appreciate the active lifestyle of you and your family. Appliances in this range offer you real benefits and energy-efficient features combined with timeless design. **i-DOS** doses each load with millilitre precision, which not only delivers outstanding results but a host of savings, while **Night Wash** allows you to take advantage of evening tariffs.

Serie 4 +

Easy to operate with family life in mind, our **Serie 4** range truly understands your requirements. Practical and straightforward to use, these appliances combine easy operation with stylish design. Now experience the same quiet and energy-efficient wash cycles as our premium models with **EcoSilence Drive™**.

All our laundry appliances include the following features as standard:

EcoSilence Drive™.
Our advanced motor producing maximum efficiency, economy, durability and performance whilst operating at exceptionally low levels of noise. We're so confident that it will deliver a quiet revolution that it comes with a 10-year guarantee.

VarioPerfect™.
VarioPerfect™ technology means you can get full loads clean in just one hour* by selecting SpeedPerfect, or select EcoPerfect and laundry comes out brilliantly clean using up to 66% less energy.**

ActiveWater™.
Bosch washing machines with ActiveWater™ technology measure exactly the right amount of water required for every load of laundry, so they never use a drop more than is needed.

Energy efficiency.
Not only do our washing machines achieve great results for energy efficiency, now they can also show you how much you are saving. Our EcoBar Plus function does the thinking, so you don't have to.

SuperQuick 15.
Turn around a wash in just 15 minutes. Designed for a lightly soiled 2kg load (that's roughly 10 business shirts), this cycle packs in a wash, two rinse cycles and improved spinning, making it one of the shortest complete wash programmes of any machine on the market.

* Compared to just over two and a half hours on Easycare 40ºC wash programme.
** Compared to an EU label standard cotton 60ºC programme.

Model shown: WAW28750GB

Everything's just right with i-DOS.

EUROPE'S BRAND NO.1*

💧 i-DOS

Too much detergent or too little can lead to poor washing results. i-DOS automatically senses exactly the right amount of detergent and water to use, as well as the correct temperature, whatever your load.

The perfect dose every time.

It's easier than you might think to get the detergent dose wrong when doing the laundry. Thanks to **i-DOS**, it's no longer a worry. The **automatic dosing system** from Bosch uses the optimum amount of detergent for every wash what ever the size of your load.

The right setting for the load. Makes perfect sense.

Whether it's a quick sports wash or a full weekly load, sensors within the automatic dosing system determine the amount and type of clothes within each load and set the correct temperature and amount of detergent required for perfect results.

Too much? Too little? Just right with i-DOS.

Once activated, the i-DOS system measures the detergent automatically, to the nearest millilitre. Sensors inside the washing machine detect the type of fabric, the load volume in the drum and the degree of soiling, and adjust the detergent to the optimum dose accordingly. In this way, you'll achieve the best results for your clothes, whilst **saving detergent and water.**

Too much.

Using too much detergent – even by a little – leads to **significantly higher** water and energy consumption when washing. Visible detergent residues can be left on clothing, which can trigger skin irritation and allergies.

Too little.

Using too little detergent can lead to **poorer washing results.** Stains won't be completely removed and could be left on clothes permanently. Insufficient detergent can also result in discolouration and unpleasant odours.

Making **life easy** through innovative technologies

Save energy, quietly and economically.

Our freestanding laundry appliances are designed to perform perfectly, load after load. And our advanced technology now cleans hygienically at the touch of a button, meaning your clothes can be washed effectively at low temperatures.

Hygienically clean at the touch of a button.

We've developed **ActiveOxygen™** to take special care of your favourite clothes – hygienically. This clever system cleans your most delicate fabrics at low washing temperatures, protecting their colour while eliminating 99.99% of the bacteria and germs found in clothes, without the use of any chemical additives.

And for clothes that are essentially clean but just need a freshen up, choose **ActiveOxygen™ Refresh**. This 45 minute programme is even suitable for highly delicate fabrics, saving you a trip to the dry cleaners.

Save time. Save energy. With VarioPerfect™ you decide.

The battle against rising average energy and water bills* starts here with **VarioPerfect™** technology on all our freestanding washing machines.

Get full loads clean in just one hour** by selecting **SpeedPerfect** or select **EcoPerfect** and laundry comes out brilliantly clean using up to 66% less energy.***

Never miss an item again. Reload by Bosch.

For dropped socks, mistaken items with your whites or forgotten clothes, Reload function on all Bosch washing machines allows you to add or remove clothing of any size to your washes.

Simply pause the cycle and the machine will automatically adjust the water level to allow you to open the door. Reload your items and restart the wash.

Self-cleaning. So you don't have to.

To run at peak efficiency the tumble dryer's condenser needs to be kept clean. The ground-breaking automatic **SelfCleaning Condenser™ system** uses water from the drying cycle to flush away lint and fluff, so you don't have to do it. That's one less job to worry about and it keeps the tumble dryer as energy-efficient as the day you bought it.

Dry efficiently and even more economically.

Our heat pump dryers aren't like conventional dryers – they don't heat the air using heating rods but use a heat pump instead. This uses the hot waste air to create most of the energy for the next drying process. So when it comes to drying, you'll always be energy-efficient.
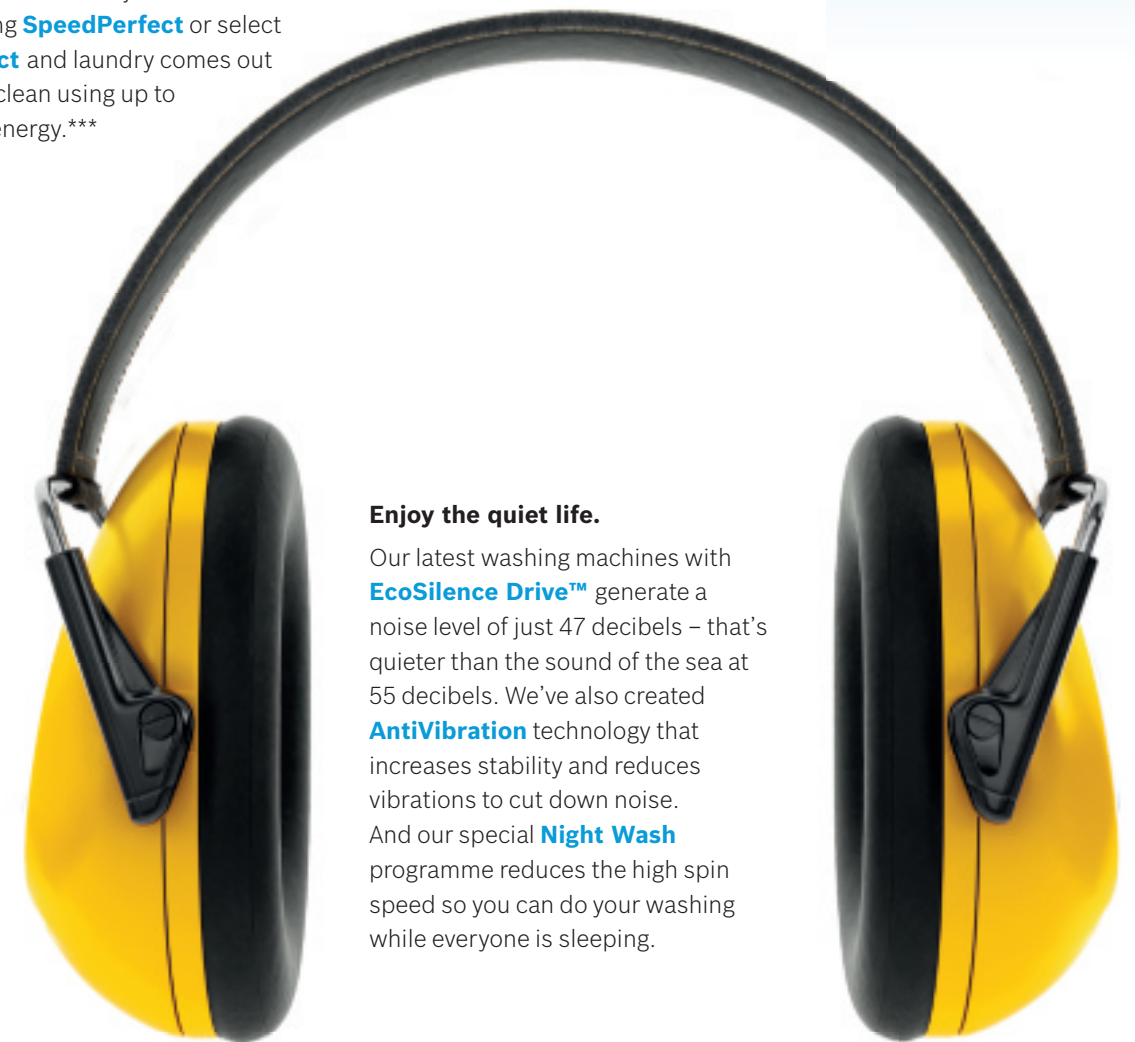

Enjoy the quiet life.

Our latest washing machines with **EcoSilence Drive™** generate a noise level of just 47 decibels – that's quieter than the sound of the sea at 55 decibels. We've also created **AntiVibration** technology that increases stability and reduces vibrations to cut down noise. And our special **Night Wash** programme reduces the high spin speed so you can do your washing while everyone is sleeping.

Model shown: WAT28560GB

* Infrastructure investment: the impact on consumer bills. National Audit Office Press Release, 13 November 2013.
** Compared to just over two and a half hours on Easycare 40°C wash programme.

Introducing the Bosch dishwasher range.

All our dishwashers offer a range of advanced technologies as standard and additional options across the range to suit your individual requirements. To help you choose the right Bosch dishwasher we have divided them into the four ranges below.

Serie 8   +++

Our **Serie 8** range combines cutting-edge design and advanced technologies for optimum cleaning performance. The **A+++** energy efficiency rating of this range is complemented by our **PerfectDry** function, where moisture is absorbed before being released as hot air for energy-efficient drying. **VarioFlex Pro** basket system offers additional storage and flexible loading solutions.

Serie 4   +

Our **Serie 4** models offer great value for money but do not compromise on Bosch build quality. They combine advanced energy- and resource-saving features and in addition offer **VarioFlex** baskets with foldable racks in the lower basket.

Serie 6   ++

Our **Serie 6** range comes packed with technology, from energy- and water-saving modes to quick washes for when time is of a premium. This range contains a **PerfectDry** model offering excellent drying results and also our quietest model that can operate as low as 36dB.

Serie 2

Our **Serie 2** dishwasher range offers you classic design with easy operation. This is the optimal solution for anyone who wants a reliable appliance to suit their individual requirements.

Model shown: SMS88TW06G

All our dishwashers include the following features as standard:

EcoSilence Drive™.

Our advanced motor has been built to provide you with maximum efficiency, economy, and durability whilst operating.

ActiveWater™.

The ActiveWater™ technology in all our dishwashers means it can take as little as 6.5 litres* of water to clean 13 place settings for a three-course meal**. That's less water than it takes to fill a standard-sized kitchen sink.

VarioSpeed Plus.

When you need to save time, VarioSpeed Plus will get all your dishes dry in extra quick time, with the ability to reduce running times on a standard wash programme down to a third.

DosageAssist.

Get the most out of your detergent with DosageAssist; a small area at the front of the top basket that catches the tablet when it's released during the cycle. It controls how the tablet is dissolved for optimum performance.

10 year anti-rust warranty.

Our appliances are made from top quality materials and in addition to our standard appliance warranty, we provide a free-of-charge warranty against rusting-through of the dishwasher's inner cavity.

* 6.5 litre water consumption on standard Economy 50ºC programme. Model SMS46IW02G.
** Three-course meal as defined by dinner, soup and dessert plate, cup and saucer, glass, knife, fork, soup, tea and dessert spoons for each place setting as well as 1 serving plate, 2 serving bowls, 2 serving spoons, 1 serving fork and 1 sauce spoon.

Making **life easy** through innovative technologies

The dishdryer among dishwashers.

PerfectDry

Finally, a dishwasher that dries as perfectly as it cleans, even on plastics. Our **PerfectDry** dishwashers use energy-saving minerals that heat up when they come into contact with moisture, to create cupboard-ready results naturally.

PerfectDry a clever function that saves energy by using less electricity to dry everything to perfection. And we do mean everything – plates, pans, glasses and all plastic items. Your lunchboxes and containers will be perfectly clean and dry, so you'll never have to pick up a tea towel to finish the job again.

The dishdryer among dishwashers.

The technology behind PerfectDry uses Zeolith® minerals to help dry the load economically and efficiently. The dishwasher absorbs humidity from the washed dishes and the clever Zeolith® beads then transform that humidity into warm air that speeds up the drying process. So when you need a wash with brilliant drying results, it's time to choose Bosch.

Fantastic on plastic.

With the smart PerfectDry function, you'll notice excellent results on glasses, dishes and especially plastics which are notoriously difficult to dry. And as this process harnesses the heat generated by the appliance, you'll get this additional drying function without the need for extra energy – which means you'll be saving on your electricity bills.

And as Zeolith® minerals never wear out, you'll have sparkling results for the entire life of the dishwasher.

Everything you could want.

Along with technology that dries with less energy, you'll also have the benefits of flexible loading, outstanding cleaning results and the very best build finish. All the qualities you'd expect with a Bosch appliance.

PerfectDry feature available on SMS67MW00G and SMS88TW06G.

Model shown: SMS88TW06G

Explore more at **www.bosch-home.co.uk**

Making **life easy** through innovative technologies

Take a load off your plate.

Bosch dishwashers are fully loaded with features to make life that little bit easier. If you want sparkling clean dishes, our Bosch dishwashers are a must-have in your kitchen.

Model shown: SMS88TW06G

Technology to save you time.

Our **VarioSpeed Plus** option reduces programme times without compromising on quality. So you still get hygienically clean and dry dishes but in about a third of the time of the standard programme – ideal for busy households and entertaining.

DosageAssist.

Get the most out of your detergent with DosageAssist; a small area at the front of the top basket that catches the tablet when it's released during the cycle. It controls how the tablet is dissolved for optimum performance.

The key to flexibility.

The **VarioFlex Pro** rack system offers maximum flexibility and allows the dishwasher to be adapted to any load that suits you, while still securing everything in place. The VarioDrawer is an additional loading level, ideal for cutlery and smaller items, freeing up space in the rest of the dishwasher. The adjustable 3-stage **Rackmatic™** system allows the upper basket to be moved up and down to fit more in the top or bottom basket as required.

Machine Care.

Your dishwasher will help look after itself with this smart function. Optimising the water and energy consumption, it works on a short run time of 80-90 minutes at high temperatures. It cleans and eliminates lime and grease deposits inside the tub and waste pipes and works with a standard machine-care detergent. It will even remind you to run the programme every 30 cycles.

2 washes in 1.

Delivering an intensive wash on the bottom basket while the top basket carries on as normal, the **Intensive Zone option** will clean baked on pots and pans, glasses and dishes at the same time. There's no need to wash two loads or to slip on the rubber gloves and wash half up by hand.

Bosch recommends Finish for dishwashers.

Bosch has tested and recommends using Finish dishwashing products. For the ultimate clean and shine, plus added protection to help to prevent build up of limescale in your machine, Bosch recommends Finish Quantum Max.

More drying power when you need it.

Want your dishes extra dry? No problem. This function gives you even more drying power when you need it.

Just choose the **Extra Dry** option and more heat will be created to extend your load's drying cycle.

Making **life easy** through innovative technologies

Introducing the Bosch refrigeration range.

All our fridge freezers save you money and ensure optimum freshness thanks to their energy efficiency ratings, clever technology and storage systems. To help you choose the right Bosch fridge freezer we have divided them into three ranges.

All our refrigeration appliances include the following features as standard:

Energy efficiency.

Luckily, our most energy-efficient fridges have an A+++ rating, which means they only use half as much electricity as it takes to power an energy saving light bulb*.

NoFrost.

Never worry about having to defrost the freezer again. The NoFrost system prevents the build up of ice by automatically initiating the defrost operation only when it is needed.

LowFrost.

LowFrost cuts ice build up by half which maintains energy efficiency, saving you energy and time.

VitaFresh.

With VitaFresh, we have developed a freshness system that quite simply guarantees optimum storage conditions for all your fresh foods. It creates ideal conditions to keep foods vitamins rich and fresher for longer.

Serie 6 ++

State of the art technology, including our **Home Connect** feature in some models, ensures our **Serie 6** range combines energy-efficient performance with adaptable storage and superior food preservation. **VitaFresh plus** drawers store meat, fish and fruit & vegetables at a lower temperature & humidity, keeping them fresh and nutritious.

Serie 4 +

Our **Serie 4** models combine clever features and technology, including the Bosch build quality that offers flexible storage solutions with enough space for all your family shopping. All models include our **VitaFresh** freshness system which guarantees ideal storage conditions for your fresh food.

Serie 2

With energy efficiency an increasing priority in homes, the **Serie 2** refrigeration range is just as efficient as it is value for money.

Model shown: **KGN49XW30**

* Energy saving light bulb uses 157kWh. KSV36AW41G uses 75kWh per year.

Making **life easy** through innovative technologies

L0°ck in the freshness.

VitaFresh

Keep food fresher for **longer** with our true 0°C compartments for fruit and salad.

The healthy option.

Welcome to the freshest feature in refrigeration: VitaFresh – smart technology that regulates the temperature and humidity in your fridge. All new Bosch fridges have this feature built in to keep your food fresh and vitamin-rich for longer. We all know the importance of eating plenty of fresh fruit and vegetables, and we're making sure a healthy diet couldn't be easier.

0°C – the perfect temperature.

With VitaFresh, you'll be able to store your fruit and vegetables at exactly 0°C to lock in the freshness. And with an adjustable humidity setting on the drawer, you'll be keeping your fresh food in a perfectly controlled environment.

You'll also find two drawers, one for fish and one for meat, with a temperature regulating slider which lets you lower the temperature to up to 4°C lower than the rest of the fridge. VitaFresh plus models have the added benefit of a convenient push button for humidity control.

Savings, savings.

Thanks to this smart Bosch innovation, your fish, meat, fruit and vegetables will all last longer. And when your food lasts longer you'll throw less food away and need to make fewer trips to the supermarket. All of which means more money in your pocket.

And a whole lot more.

You'll also find your new fridge surprisingly roomy with more storage space than you'd expect. Separate, removable drawers give you flexible space and clever design gives you quick and convenient access to food. So, there's plenty of room to store all your fresh food for longer.

The PerfectFit.

Our PerfectFit feature allows you to place your fridge freezer directly against walls or furniture, allowing flexible installation and a seamless fit. The door can be opened a full 90° when installed against a wall or at the end of a run, giving you easy access to the contents inside your fridge.

Making life easy through innovative technologies

Fridge freezers

VitaFresh means a healthy diet has never been so easy.

The fresher your food is, the better it is for you. That's why our VitaFresh system is designed to store your fresh food at the optimum temperature keeping the freshness and vitamins locked in for longer.

Introducing Bosch small appliances.

Our award-winning range of appliances isn't just restricted to large models. We also design and engineer high quality vacuum cleaners, irons, steam generators, drinks machines, kettles, toasters, kitchen machines and other food preparation appliances.

As you would expect from Bosch, they are packed with innovative and helpful technology and deliver outstanding levels of performance, build quality and reliability.

Model shown: **BCH61840GB** vacuum cleaner
MUM9GX5S21 kitchen machine

The only cordless vacuums with the power of Bosch.

Cordless, powerful, lightweight and agile, the Athlet combines maximum performance and convenience on carpet, wood, laminate or any floor type.

Slim and manoeuvrable, the Athlet has superb power and combined with the innovative SmartSensor technology achieves the same cleaning result as a corded vacuum cleaner.*

Maximum flexibility.

Get excellent handling and versatility with the flexible vacuum head combined with the HighPower AllFloor motorised brush. For those harder to reach areas, Athlet even cleans when laid flat so now you can vacuum right under the furniture effortless and thorough cleaning results on any floor.

EasyClean.

The Athlet requires no bag changes. It's a quick and simple task to remove, clean and replace both the dirt container with filter unit and brush roll.

Not just for floors.

Use our convenient Athlet accessory kit for those harder-to-reach areas. A shoulder strap makes it easier to carry, while the XXL upholstery and crevice nozzles work on any furniture and surfaces.

Bosch Lithium-Ion Technology.

Using premium Lithium-Ion battery technology, the Athlet gives you an extra-long run time using only a short charge time. When combined with the highly efficient and aerodynamically optimised LongLife Motor, the rechargeable batteries ensure the new Athlet can be used regularly with no drop in performance.

With a fantastic runtime of up to 75 minutes** and outstanding performance, the Athlet can be used frequently before charging is required.

Introducing **Athlet Ultimate** – the new cordless vacuum cleaner with an uncompromising performance wherever and whenever you need it. Ultimately, it's the only vacuum cleaner you need.
Athlet ProAnimal. Meet your new best friend.

Designed with pet owners in mind, ProAnimal nozzle and additional brush roll delivers superior cleaning results on all floors.

Eradicate pet hair quickly and easily from all surfaces with the included accessories, and enjoy a long lasting runtime of up to 75 minutes.**

*Dust pick-up in comparison to a 1600W vacuum cleaner from Bosch (BSG6B100GB) on carpet and hard floor with crevice. Tested according to EN 60312/2008 [with partly filled receptacle].

** When used on setting 1

Making **life easy** through innovative technologies

Athlet cordless vacuum

Athlet Ultimate

BCH732KTGB

Up to 75min runtime	Lightweight 3kg

Specifications

Long 75 min runtime

Making **life easy** through innovative technologies

Total Steam Genius.

Bosch Steam Generator irons apply constant steam at high pressure so you can glide through the ironing faster and easier than ever before – a touch of genius.

Introducing the new generation of Bosch steam generators, making it easy to help you choose the right iron for your needs and lifestyle.

VarioComfort.
Glide your way to perfection. Our **VarioComfort** system is easy to use and has a programme for all your fabrics. From silk and synthetics to denim and linen – you'll get perfect results every time. It applies a constant high-pressure steam allowing you to achieve precision ironing faster and easier than ever before. With flexible settings to suit all fabrics, a unique hygiene programme on selected models and a smooth-gliding and scratch-resistant soleplate, you'll get perfect results every time. Plus the new SecureLock system makes it safer to carry and store your iron.

EasyComfort.
Iron all fabrics on one setting. Genius. Our **EasyComfort** sytem with i-Temp allows you to iron all fabrics on one setting making ironing a whole lot easier. There's no need to pre-sort clothes or set the temperature before you begin so you can relax knowing your iron is safe on all fabrics. Also featuring a smooth gliding and scratch-resistant soleplate along with a 1.5 litre water tank means you'll also power through your laundry faster and easier than ever before. All of which gives you more free time.

One setting for all your ironing.
i-Temp uses one optimum temperature to suit all fabrics so now there's no need to pre-sort the laundry. With **i-Temp** you can save time and carefully look after your clothes. **Available on both the VarioComfort and EasyComfort range.**

Say goodbye to limescale.
Calc'nClean Perfect is a highly-efficient cleaning system – a first for both the steam generator and iron. The fully-automatic cleaning programme for the iron also removes any limescale particles. **Available on both the VarioComfort and EasyComfort range.**

Removes 99.9% of microbes from laundry.
The ProHygienic special programme eliminates 99.9% of microbes in fabrics, without chemicals, thanks to its innovative HygienicSteam technology. Deep steam penetration kills germs, even on thicker textiles, whilst the soleplate maintains a constant temperature for microbe-free laundry every time. **Available on selected VarioComfort models.**

Serie 8 +++
Our **Serie 8** range combines premium design and technology to deliver optimum ironing performance. Featuring our **VarioComfort** system, there is a programme available to choose from whatever the fabric. From platinum finish controls to removable, large capacity water tanks, our irons glide through the ironing, making light work of even the largest laundry loads.

Serie 6 ++
Our **Serie 6** range comes packed with helpful features. From **SecureLock** making it safer to carry and store your iron to **EasyComfort,** allowing you the convenience of being able to iron all fabrics on one setting. Perfect for all your everyday ironing requirements.

Bosch makes it, easy.

Our multi-functional, award winning kitchen machines, food mixers and processors are packed with innovative, labour-saving technology so you can chop, blend, shred, mix and whisk your way more quickly through your food preparation task.

Introducing the new OptiMUM – offering everything-in-one kitchen machine, making cooking and baking a whole lot easier for you. Including a huge variety of professional accessories for all your cooking and baking ideas, this is the only kitchen machine you will ever need to bring your recipes to life.

As powerful as it looks, the OptiMUM comes in a full metal casing, which guarantees durability as you would expect from Bosch.

3D Mixing.

This clever mixing system runs in 3 dimensions to mix all the ingredients.

Thanks to its advanced design, nothing remains stuck to the sides of the bowl, eliminating the need for a spatula to push everything down.

The large stainless steel mixing bowl with 5.5L capacity and two handles further guarantees ease of use.

Perfect results at the touch of a button.

Another smart feature of the OptiMUM are its highly sensitive sensors that measure the consistency of the ingredients and stop automatically at exactly the right time. So, you'll always have perfect results at the touch of a button – whether it's yeast dough, whipped cream or egg whites. And rather than keeping an eye on the machine, you'll be free to do something else.

Integrated scales.

The OptiMUM makes life even easier thanks to the built-in scales that accurately weigh all your ingredients as you add them to the bowl, saving you cleaning additional bowls.

Blender and chopping attachments
10 accessories included
Stainless steel bowl with handles

Perfectly mixed ingredients.

Your ingredients will be perfectly mixed thanks to the 3D mixing system. Simply add your ingredients to the bowl and let the mixer do the work for you. The unique stirring movement is designed to ensure that all of your ingredients are thoroughly mixed, and nothing is left stuck to the side of the bowl.

All models comply with COMMISSION REGULATION (EC) No 1275/2008 with regard to ecodesign requirements for standby and off mode electric power consumption.
Cottons 60+ecoPerfect and Cottons 40/60+ecoPerfect are the standard washing programmes to which the information in the label relates. These programmes are suitable to clean normally soiled cotton laundry and are the most efficient programmes in terms of combined energy and water consumption. Annual energy and water consumption based on 220 standard wash cycles.

The programme cotton cupboard dry used at full and partial loads is the standard drying programme to which the information on the energy label refers.
This is the most efficient programme in terms of energy consumption for cotton.
Annual consumption is based on 160 drying cycles.
Data valid in this table as of April 2017. Subject to modification without prior notice.
For full specification details, please log onto our website and download a full specification sheet.

All models comply with COMMISSION REGULATION (EC) No 1275/2008 with regard to ecodesign requirements for standby and off mode electric power consumption.
Cottons 60+ecoPerfect and Cottons 40/60+ecoPerfect are the standard washing programmes to which the information in the label relates. These programmes are suitable to clean normally soiled cotton laundry and are the most efficient programmes in terms of combined energy and water consumption. Annual energy and water consumption based on 220 standard wash cycles.

● = Yes - = No

Key to accessories: SGZ1010: AquaStop extension, **SMZ5300:** Wine glass holder, **SMZ5001:** Bottle and small parts holders, **SMZ5002:** Silver polishing cassette, **SMZ5100:** Adjustable cutlery basket, **SPZ5100:** Vario cutlery basket, **SZ73100:** Cutlery basket

[1] Based on 280 standard cleaning cycles using cold water fill, including consumption of the standby mode.
[2] The consumption per cleaning cycle of the "Eco 50" programme using cold water fill.
[3] We would recommend our dishwashers are connected to the mains water supply where possible. However, they may also be connected to an external water softener as long as the water softener produces softened water of less than 1.1 mmol/litre (7.0°e) and the water softener in the appliance is turned off. Please contact product advice for further information.

Water pressure required: 0.5-10 Bar. Flow rate: 10 litres per minute. Inlet valve connected directly to ¾" screwed joint.

All models comply with COMMISSION REGULATION (EC) No 1275/2008 with regard to ecodesign requirements for standby and off mode electric power consumption.

Data valid in this table as of April 2017. Subject to modification without prior notice.

American-style fridge freezer

KAD90VI20G / KAI90VI20G / KAN90VI20G / KAG90AI20G / KAD90VB20G

x₁ (unit depth)	a	b
600	24	24
650	24	100
700	24	175
x₂ (wall)	90	464

Chilling drawers can be pulled out completely at a door opening angle of 160°

KAN92LB35G N.B. Doors need to be able to be opened to a minimum of 160° angle to allow the drawers to be fully accessible

x₁ (unit depth)	a	b
600	39	39
650	39	53
700	39	85
x₂ (wall)	105	330

Chilling drawers can be pulled out completely at a door opening angle of 122°
KAN92VI35 / KAD92AI20G N.B. Doors need to be able to be opened to a minimum of 122° angle to allow the drawers to be fully accessible

All diagram measurments are in millimetres (mm)

We try to keep up to date with constant technological improvements, so from time to time we may update installation guidelines. Therefore we strongly recommend that you download the latest installation guidelines from www.bosch-home.co.uk. Line drawings are for guidance only, and we recommend that you refer to the latest installation guidelines. Though every care is taken to ensure instructions are correct at the time of printing, Bosch cannot accept responsibility for incorrect planning or installation as a result of the use of these line drawings.
